

CLAIMS

What is claimed to be new and desired to be protected by Letters Patent is set forth in the appended claims.

I claim:

1. A display case for musical instruments, comprising:
 - a) a housing having a top, a bottom, a back, a pair of sides and a front for receiving the musical instrument therein, wherein said housing has an inside and an outside;
 - b) a door frame forming said front of said housing, said door frame having an opening therein for receiving a transparent member therein, wherein said door frame has a front surface, a rear surface, side edges extending around the perimeter and a lower portion, wherein said opening has an inner edge;
 - c) a door stop disposed on said front of said interior of said top, bottom and pair of sides of said housing to receive said door frame thereon, said door frame being sized to frictionally fit within said door stop, said door stop having an anterior surface;
 - d) a knob disposed on said front surface of said door frame to permit the door frame to be removed from the housing;

e) a hanger or clips for the musical instrument being disposed on said inside back of said housing to permit the musical instrument to be displayed; and,

f) a light which can be disposed inside said housing to permit the musical instrument to be illuminated.

2. The display case of Claim 1, further comprising hook and loop material being disposed on said anterior portion of said door stop and mating hook and loop material being disposed on said rear side edges of said door frame to permit the door frame to be removably disposed on the door stop.

3. The display case of Claim 2, further comprising a plurality of clips disposed about said rear surface of said inner edge of said opening for attaching said transparent member to said door frame.

4. The display case of Claim 3, wherein said transparent member comprises Plexiglas.

5. The display case of Claim 4, wherein said inside of said housing is covered with fabric to permit the housing to be protected.

6. The display case of Claim 5, wherein said outside of said housing is covered with fabric to permit the housing to be protected.

7. The display case of Claim 6, further comprising a piping design being disposed on said front surfaces of said door frame.

8. The display case of Claim 7, further comprising a piping design being disposed on said front of said housing.

9. The display case of Claim 8, wherein said knob comprises brass, said brass knob being disposed on said lower front portion of said door frame.

10. The display case of Claim 9, wherein said hangar comprises a pair of spaced apart arms for receiving a neck of the musical instrument thereinbetween said arms.

11. The display case of Claim 10, further comprising a plurality of caps being disposed on the corners of said housing to permit the corners to be protected.
